MEMBERS OF THE ADVISORY BOARD

Argentina: RODOLFO E. TOUZET, Sociedad Argentina de Radioproteccion; *Austria:* ALFRED BOSE, Österreichischer Verband für Strahlenschutz; *Belgium:* P. DE PLAEN, Association Belge de Radioprotection; *Czechoslovakia:* EMIL KUNZ, Society of Nuclear Medicine and Radiation Hygiene; *East Germany:* GEORG SITZLACK, Gesellschaft für Strahlenschutz; *France:* JEAN STOLZ, Société Française de Radioprotection; *Hungary:* LASLO BOZÓKY, Eötvös Lorand Physical Society, Health Physics Section; *India:* A. R. GOPAL-AYENGAR, Indian Association for Radiation Protection; *Israel:* TUVIA SCHLESINGER, The Israel Health Physics Society; *Italy:* PIERO CALDIROLO, Associazione Italiana di Fisica Sanitaria e Protezione contro le Radiazioni; *Japan:* YOSHIYASU KUROKAWA, Nippon Hokenbutsuri Kyogikai; *Luxembourg:* ROGER NOESEN, Association Luxem bourgeoise de Radioprotection; *Mexico:* R. M. DENULMAN, Association Mexicana de Protection Radiologica y Fisica Medica, A. C.; *Netherlands:* Z. M. NOOTEBOOM-BEEKMAN, Nederlandse Vereniging voor Stralingshygiene; *Nordic Countries* (*Denmark, Finland, Iceland, Norway* and *Sweden*): SAKARI MUSTAKALLIO, Nordic Society for Radiation Protection; *Philippines:* L. N. NIGUIDULA, Philippine Association for Radiation Protection; *Poland:* JERZY PENSKO, Polish Society for Medical Physics, Section of Radiation Protection; *South Africa:* JOHAN K. BASSON, South African Association of Physicists in Medicine and Biology, Health Physics Subgroup; *United Kingdom:* W. A. LANGMEAD, The British Radiological Protection Association, Ltd.; *United States and Canada:* PAUL L. ZIEMER, Health Physics Society; *U.S.S.R.:* F. G. KROTKOV, Board of Radiological Health Physics Society; *West Germany, Switzerland:* J. MEHL, Fachverband für Strahlenschutz; *S.F.R. Yugoslavia:* ZDRAVKO BUZADZIC, Yugoslav Radiological Protection Association.

Business Office: Mr. RICHARD J. BURK, JR., *Executive Secretary, Health Physics Society,* 4720 *Montgomery Lane, Suite* 506, *Bethesda, MD* 20014. *Tel.* (301) 654-3080. *Journal subscribers should inform the Executive Secretary of changes of address. Publishing and Advertising Offices; American Continent: Pergamon Press Inc., Maxwell House, Fairview Park, Elmsford, NY* 10523.

*Rest of the world: Pergamon Press Ltd., Headington Hill Hall, Oxford, OX*3 0*BW, England.*

Membership dues (*see Prospectus*)*; application for membership should be made to the Executive Secretary of the Health Physics Society.*

Annual Subscription Rate 1977 *for non-members, government departments, industrial establishments and all other multiple-reader institutions US* $145 p.a. (*including postage and insurance*), *educational libraries US* $100 p.a. *In the interests of maximizing the dissemination of the research results published in this important international journal we have established a three-tier price structure. Any individual whose institution takes out a library-subscription may purchase a second or additional subscriptions for personal use at the much reduced rate of US* $30.00 p.a. *Published monthly. Two volumes* p.a. *All subscriptions orders should be addressed to the Subscription Fulfillment Manager, Pergamon Press Ltd., Headington Hill Hall, Oxford OX*3 0*BW.*

Back issues of all previously published volumes are available in the regular editions and on microfilm and microfiche. Current subscriptions are available on microfiche simultaneously with the paper edition and on microfilm on completion of the annual index at the end of the subscription year.

Authors are requested to return their corrected proofs within 48 hours to the address given on the gummed label provided and indicated on the first page of the manuscript.

INSTRUCTIONS TO CONTRIBUTORS

Submission of manuscripts

Language: Manuscripts must be submitted in English.

Health Physics publishes manuscripts concerning *original research* (radiation, radiological and nuclear physics, dosimetry, internal dose, waste disposal, ecology, radiobiology, etc.) and *applied and development work* (monitoring techniques, air sampling, administrative procedures, exposure data, accident evaluations, etc.).

The original and two copies of manuscripts double spaced and typed on one side of $8\frac{1}{2} \times 11$ in. paper (A4 paper, ~23 × 30 cm, acceptable) with $1\frac{1}{2}$ in. margins at top, sides and bottom of page, should be submitted as follows:

All Papers, Notes, Letters to the Editor, and other correspondence: Editorial Office, Health Physics Journal, Hazards Control Department, Lawrence Livermore Laboratory, Livermore, CA 94550.

All News Items: *W. S. Nichols*, Health Physics Division, Oak Ridge National Laboratory, Oak Ridge, TN 37830.

With the exception of News Items, the Editorial Office will be responsible for scheduling all manuscripts for publication. After acceptance of your manuscript, questions concerning its scheduling, reprints, etc. should be directed to the Editorial Office at Lawrence Livermore Laboratory.

Papers. Title of the paper (in caps), name and complete address of author(s), and **abstract** should appear on the first page. If more than one author or address, please underline the name and address of the person to whom correspondence and the proofs should be sent. Begin the text 5 lines below the last by-line to allow for the date of receipt of the manuscript to be added. Authors are requested to inform the Publisher of any change of address which occurs while their paper is in the process of publication.

Notes. Should be 8 pages or less, including figures and tables. Title of the Note (in caps), name and complete address of author(s) should appear on the first page. Begin the text 5 lines below the last by-line to allow for the date of receipt to be added. The name (on the right) and address on the left) should also appear at the end of the Note.

Letters to the Editor. Letters to the Editor should be written as letters since they are intended to express a personal point of view. A title should appear on the first page. Letters will not be reviewed except to determine the appropriateness of the subject matter, to exclude obvious errors and to assure conformance with good taste. Following the title, a letter should begin with a salutation and the name(s) and address of the authors should appear at the end. Anonymous letters will not be published.

Preparation of Manuscripts

Abbreviations. Please refer to the list published in *Health Phys.* **25**, 533 (1973).

Figures and tables. Three high-quality reproductions (approximately $8\frac{1}{2} \times 11$ in.) for all figures, photographs, tables, etc. must accompany your paper. The lettering must be of such a size that letters and symbols will remain legible after reduction to fit the printing area available. **Figures and photographs should be kept to a minimum and generally should not duplicate information in tables or other material.**

Figures and tables, and their captions, should be largely understandable without reference to the text, particularly with regard to units and quantities represented. Please use Arabic numerals when numbering the figures and tables, and indicate the figure number and author's name on the reverse of each reproduction. In the interests of economy and in order to avoid the introduction of errors, tables will be reproduced by photo-offset means directly from the authors' typed manuscripts. In case of difficulty, please consult the Photoreprographic Unit of your institution. A separate sheet with a list of all figure and table captions must be attached at the end of the paper.

References. Effective immediately, references should be listed, typed (double spaced), in alphabetical order at the end of the paper. Manuscripts not conforming to this alphabetical system will be returned to the author for correction. In the text, references should be referred to only by the first two letters of first author's surname and year of publication. Should you have the same two letters use the first three letters of first author's surname. When reference is made more than once to same author and year, a, b, c, etc. should be added to date in text and reference list. The abbreviated reference as it appears in the text should be put in a left hand column in list of references. The reference list should be compiled in the following manner: initials; surname and initials of author(s); year of publication; title of article (in quotes); name of journal (underlined) using *World List of Scientific Periodicals* abbreviation; volume number; page number. Please note that "*et al.*" will not be acceptable in the reference list. Please identify laboratory reports completely and not by initials only in the reference list. For specific examples, please refer to a recent issue of the Journal or the Editor's Page published in *Health Phys.* **30**, 1 (1976).

Equations. All equations should be typewritten. Mathematical notations should be simple, avoiding when feasible such complexities as fractions within fractions, subscripts on subscripts, etc. Special symbols such a $\int$, $\sum$. $\approx$, $\geq$, etc. must be typed or lettered carefully in the proper size, and exponents and subscripts should be clearly positioned.

Mass numbers. Health Physics follow the practice of placing the isotope mass number at the upper left of the element symbol, i.e. ^{90}Sr.

Proofs

Corrections to proofs should be restricted to printer's and editorial errors only. Other than these, very substantial alterations may be charged to the author.

Publication charges and reprints

For papers published in English, the author's institution is requested to pay a publication page charge of **$50.00** per page, which entitles the author to 100 free reprints. Additional copies may be obtained at reasonable cost by ordering on the reprint order form supplied with the proofs. Payment of page charges for articles in English is not a requirement for acceptance of a manuscript if one of the authors is a member of the Health Physics Society. However, the Board of the Health Physics Society **urges all authors to make a serious effort to have page charges paid** in order to maintain present subscription rates and ***requires*** payment where none of the authors is a Society member.
